ANNUAL REPORT OF MEDICAL OFFICER OF HEALTH.

Extract from page 9 of Circular 1417, dated 25 Oct 1934

TUBERCULOSIS.

New Cases and Mortality during 1934. *

Particulars of new cases of tuberculosis and of deaths from the disease in the area during 1934 should be given in the Report in the following form:-

Age Periods.	New Cases ♂				Deaths ♀			
	Respiratory		Non-Respiratory		Respiratory		Non-Respiratory	
	M.	F.	M.	F.	M.	F.	M.	F.
0-	...							
1-	...							
5-	...							
15-	...							
25-	...	2	3	1		1		
35-	...							
45-	...							
55-	...							
65 and upwards								
TOTALS	3	4	2	1	1	—	—	—

- * (1) Also specify the ratio of non-notified tuberculosis deaths to total tuberculosis deaths, and add a note as to the efficiency of notification of tuberculosis in the area, and the action taken, if any, including particulars of any proceedings taken in cases of wilful neglect or refusal to notify.
- (2) If there is evidence of excessive incidence of, or mortality from, tuberculosis in any particular occupation in the area, a note on the subject should be included.
- All primary notifications should be included, and also any other new cases of tuberculosis which came to the knowledge of the Medical Officer of Health during the year.
- Deaths occurring in the district amongst temporary residents, which are transferred to another district, should not be included, but deaths occurring outside the district amongst persons normally resident in the district should be included (see returns of transferable deaths furnished by the Registrar-General).
